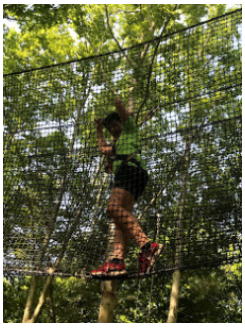
SLEEP OVER CAMP DURING SCHOOL YEAR



GENERAL INFORMATION

An English school camp in the middle of "les Guilleries", in the town of Tavèrnoles, a Catalan country house that has been renewed and adapted as a camp house. During the camp we will enjoy an unforgettable experience with lots of playful and sports activities.

Camp duration: 2, 3, 4 or 5 days

Who is the English camp for? For school groups of pre-schools, primary, secondary, family groups, families association and groups in general.

Group exclusivity: During the camp, the house is not shared with any other school or secondary school. We offer exclusivity.

Registration open for the 2025-2026 school year

CAMP GOALS

The goals of the camp are divided in two main groups

1) Goals based in four aspects of the language: listen, read, speak and write

- Have fun from learning the language
- Use English in a natural surrounding
- Develop the abilities to talk in public in English
- Approach students to the daily English language
- Motivate the usage of the spoken English language
- Provide a natural surrounding where the students can feel comfortable and dare to defeat fear
- Practice the oral comprehension of the language
- Learn new vocabulary
- Practice the written language and the reading comprehension through games and dynamics

2) Goals based on camp values

- Take the whole group to its fully participation, integration and socialization, with the group and the surroundings
- Help with the personal autonomy
- Learn to participate as a group and not to understand “group” as a separate component from the rest
- Strengthen differences as an enriching component
- Boost creativity and imagination of all participants
- Stimulate personal development and socialization
- Apply the most exciting dynamics to power the development of the kid and young participant
- Respect the surroundings
- Discover the natural space around us and learn to respect it
- Enjoy playing outdoors
- Meeting a new natural environment
- Make an effort to overcome new situations, challenges and difficulties
- Practice unusual sports and games in our daily environment

How are the goals achieved during the camp

On a playful and relaxed environment, on a safe place surrounded by nature and far from the city, students are divided in small groups. These groups can be made following the instructions of the accompanying professors or, if it is preferred, mixed groups can be made. Each group is accompanied by a supervisor and the common language will be only English. During the day, there are different activities that help us achieve the goals naturally.

Where is the camp located?
